Please see below image and steps for help on how to transfer correctly on wise. The steps must be completed in the exact order displayed below:

The screenshot shows the Wise website interface. At the top, there is a navigation bar with the Wise logo, 'Personal' and 'Business' tabs, and links for 'Money transfer', 'Multi-currency account', 'Help', 'EN', 'Register', and 'Log in'. A banner on the left reads 'The international account 1.8x cheaper than Western Union.' Below this is a green Wise card with a play button. On the right, a calculator is displayed. It shows 'You send' as 1,381.34 USD. A breakdown of fees is shown: 2.21 USD for 'Bank debit (ACH) fee' and 6.53 USD for 'Our fee', totaling 8.74 USD. The 'Amount we'll convert' is 1,372.60 USD, and the 'Guaranteed rate (8 hrs)' is 0.728544. The 'Recipient will get exactly' is 1,000 GBP. At the bottom, it states 'You could save vs banks 11.32 USD' and 'Should arrive in 2 hours'.

- 1) Change currency in the box that says 'You send' to **YOUR CURRENCY**.
- 2) Change currency in the box that says '**Recipient will get exactly**' to **GBP**.
- 3) Enter the value we should get in the box that says 'Recipient will get exactly' to the exact price we give you.
- 4) The box that says '**You send**' will automatically enter the value you will get charged in **YOUR CURRENCY**. You shouldn't have to input anything in that box apart from changing the currency to **YOUR CURRENCY**.
